

SEARCH ANY HOME FROM ANY PHONE!™

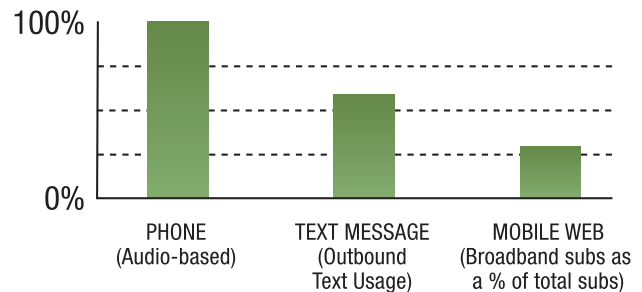

VoicePad® delivers cutting-edge mobile search technology to the real estate industry. Now, your membership can search your listing inventory from any phone, by simply entering the street/house number.

Is your Association/MLS Provider seeking a cohesive mobile solution? VoicePad MobileMLS automatically converts your listing data to professional-grade sentence structure in both English and Spanish. Unlike mobile browsers or text messaging, VoicePad MobileMLS works from every member's phone...period. No wireless broadband subscription is required. Automation never sounded this good!

- Easy – No end-user training required
- Universal – Works on any mobile phone
- Bilingual – English and Spanish
- Inexpensive – For both your organization and your membership

VOICE

THE ONLY MOBILE TECHNOLOGY THAT REACHES EVERYONE!

■ Approximate Wireless Subscriber Penetration Rates

Wireless installed base 260 million wireless users.
